

Realize operational efficiencies at predictable prices

In a market with little to no underwriting profit, our SaaS (software as a service) solutions allow you to reduce expenses and improve operating efficiencies.

Designed specifically for residual market mechanisms including FAIR plan facilities, state auto insurance plan offices, joint underwriting associations and pools, and basic/essential insurance plans, IDP Residual Market Services offer:

Fast implementation times without going through a disruptive, expensive process.

Low cost of entry lets you realize efficiencies quickly without huge licensing fees and maintenance and upgrade charges.

Predictable pricing enables you to control your administration/IT expenses and accurately forecast infrastructure operating costs.

Seamless integrations with any front-end or back

office applications and other systems you use to optimize operations while supporting your specific business model.

Hassle-free security & compliance with infrastructure that is SSAE 16 compliant, with redundant data backup and storage in multiple locations to safeguard your data.

Complete hosting solutions available for all of your websites and applications.

Get only what you need, when you want it.

Manage your backend operations the way you choose. Our policy admin system with rate, quote, bind, and issue, claims, billing, web hosting, and additional services are all available as flexible, modular components that integrate with other systems. IDP supports both individual implementations and combined applications customized to support your specific business model.

Reduced Total Cost of Ownership

Our usage based SaaS (software as a service) model eliminates huge licensing fees, maintenance and upgrade charges, and is based on one monthly fee to reduce your infrastructure operating costs. Pay only for what you need, when you need it.

Gain a competitive advantage in an uncompetitive market. Let IDP be your IT resource.

About IDP

IDP provides turnkey IT services and SaaS core systems, as well as comprehensive bureau reporting and information protection services for property and casualty (P&C) insurers, residual market plans, and program administrators. Drawing on deep insurance industry expertise and rich customer insights, IDP develops agile and affordable solutions which support new business growth, streamline processing, and produce cost savings almost immediately.
